Read the passage given below and answer questions 23 to 25.

The United Nations was formed after two great world wars took place in 1930's and 1940's. The wars had not only caused damage to houses and workplace, but had also taken away precious human lives. Watching the world crumble, 51 countries came together with the goal of helping each other, maintaining peace and extending their hands towards friendship. Some of these countries were United States, United Kingdom, China and Russia. As time passed, more countries joined the cause of United Nations. Presently there are 192 countries that have taken the decision to join hands with United Nations. Think of the problems that different countries face: natural disaster, fight among people over caste and class issues, etc. How are these problems solved? United Nations has many organizations working under them. For example, you may have heard of UNICEF (The United Nations Children's Emergency Fund). This organization provides humanitarian and developmental assistance to children and mothers in developing countries. It is estimated that 92 percent of UNICEF revenue is distributed to programme services.
